# **INCLUSIVE EDUCATION SUPPORT TOOL KITS**

Individual & General Support Tool Kits  
for Children with Disabilities

INTRODUCTION

# Program Introduction

Mercy Corps has been working for 4 years on inclusive education.

This entails, assessing children with disabilities, and integrating them in public schools.

Program Aim: Is to provide the children with disabilities with access to equitable education opportunities

MEETING PURPOSE

# What is this presentation for?

To present the education tool kits created by our team of specialists (Special Education specialists, Speech therapists, Occupational Therapists, Physical Therapists)

# Our Tool kit

MC inclusive education  
Team in the Jordan  
Office created The  
individual support tool  
kit for the use of  
resource room teachers  
& shadow teachers

# The ration behind the Individual support Tool Kit

- › When we first started implementing our program within the public schools, we hired shadow teachers (Volunteers) to help support children with disabilities in schools.

## BUT

- › When shadow teachers started working with children, especially during academic support sessions, we noticed a number of problems

# Solution

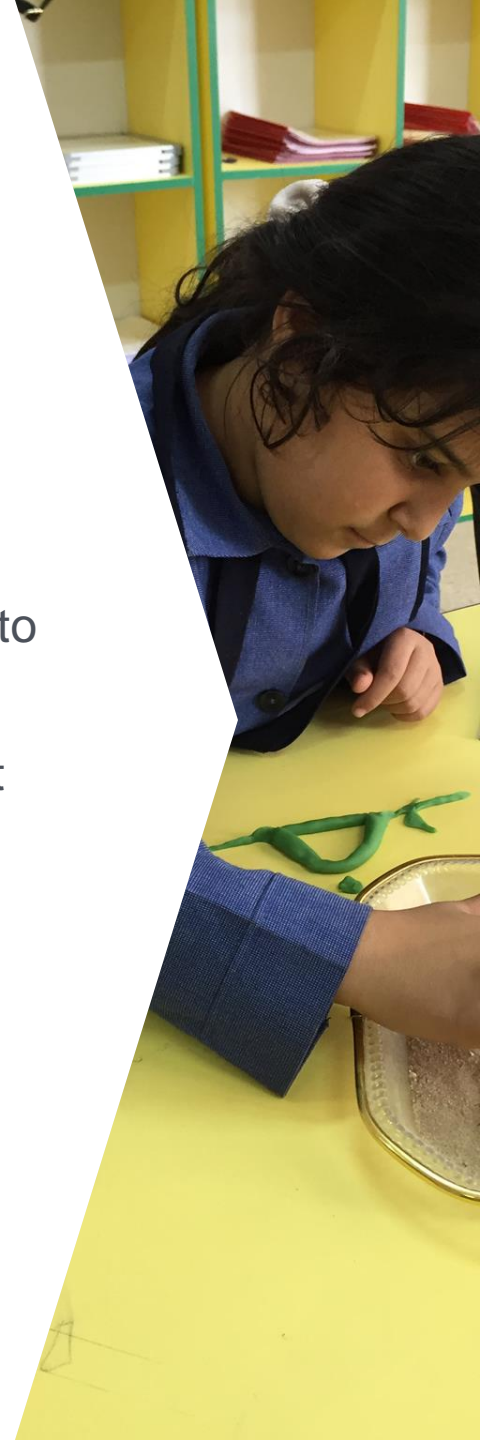

Accordingly, we decided as a team to put together a tool kit (*The individual support tool kit for the use of shadow teachers*) to help support resource room teachers & shadow teachers in dealing with and teaching children with disabilities

# The individual support tool kit

› Consists of:

- A checklist, and this assesses 128 skills under 11 domains (Prewriting, perceptual, reading, writing, Math, ADLs, Social interaction, Fine Motor, Hearing, Speech, and Physical skills)
- A Scale guide, and this includes tests, and instructions on how to administer the checklist
- A Goal bank, and this includes guidance on how write the most appropriate long and short term goals in the individual plan and educational plan
- Teaching and support guides:
  - Prewriting and Perception worksheets
  - Reading & Writing Worksheets
  - Math Worksheets
  - Hearing & Speech Exercises
  - Physical Therapy Guide
